

## Visitors

### **Visitors to Campus**

As the safety and security of our students continue to be of increasing concern, we require all adults to assist us in this effort by ensuring we are informed of your presence on campus as well as provide us with the opportunity to verify your identity and relationship to any student you wish to visit. We require that all visitors report immediately to the Security Kiosk to sign-in and get a Visitor's Badge. You will be asked to produce a driver's license or state ID to be entered into the security Raptor system and receive a visitor's badge. At the end of your visit to our campus, you need to return to the Security Kiosk and surrender your badge to a Security Officer who will then check you out of our system.

**Visitor Parking** - Visitors coming to the campus during the school day should park in either the parking spaces marked "Visitor" near the main entrance of the school, accessed via the circle driveway, or in the spaces in the south parking lot off of Steck marked "Visitor" that are closest to the building on the Mesa side. All visitors should enter through the main doors off of Mesa and check in at the Security Kiosk..

Volunteers should check with their Volunteer Coordinator to see where to park.
